

ST. HELENA HOSPITAL FOUNDATION

In 2016 much of the funds raised went toward the Hybrid Operating Room, a soon-to-be built space that allows collaboration between cardiologists, cardiac surgeons, and interventional radiologists so precious seconds will be spared as this highly trained team works together to save lives. Your contributions make it possible for St. Helena Hospital to have a state-of-the-art facility. We are extremely grateful for your support.

2016 Funds Raised
